About This Content

Challenge yourself with four new scenarios, designed by top OTC competitor “Blues” to test your ability turn a profit in less than ideal conditions. To top these trials, you’ll have to handle resource lockouts, staggering debt, and even depend on your trusty MULEs instead of mines to build the foundation of your Martian corporation. Keep a thoughtful approach and your quick wits about you and despite the odds being stacked in your competition’s favor you’ll be able to prove yourself against the finest Mars can offer.

The Scenario Toolkit also includes 41 new maps (33 on Mars, 8 on Ceres) to Offworld Trading Company. Available for both Skirmish and Multiplayer game modes, these are a great way to enjoy OTC in structured Martian environments.

Features:

- **New Scenarios** - Blues brings more content into Offworld, creating four unique puzzles for players to test their abilities in all new ways
- **New Maps** - Enjoy many new maps, based on real Martian locations, perfect for getting started with editing your own
- **New Campaign Locations** - Explore the new maps that work with the “real Mars maps” option, now incorporated into the campaign
- **Example Mods** - Aspiring Offworld Modders can access the included examples to serve as a foundation for their own creations

best game i ever played.

The Game Design is on one level with Tripple A Games like GTAV or Assassin`s Creed Origins.

If you ever need a gift for a freind this is the right game for everyone.. I regret playing this game because I did not enjoy it nearly as much as I thought I would while it wasn't totally dead, and knowing that I will never play it again it's sitting at the top of my steam library forever taunting me. I'm tempted to go buy games that start with Aa-Ah just to bump it down the list and not be what is defaulted to.. Just bought the game and I can say I love the animations and the combos,

I don\u2019t master the combos yet but still when I nail one I am super happy.

Ninja Avenger Dragon Blade is an amazing game that is easy to learn and hard to master.

The combat system is very in depth and there is always more room for improvement, even for the masters of the game.

Recommend the game to the genre lovers. And I also intend to buy this for my girl friend, she is fourteen years old.

But I don\u2019t think the game is to violent for her, is just fantasy.

This is a five star game.. I have oculus cv1 but non of the 3 modes steam offers runs the game longer than 5 sec.

black screen after 5 sec or more like green-yellow filled black screen

No issue with any other vr game so far.

last update fix it, Reinstallation necessary.

Very nice to play ;-). Funny game.

Unfortunately nobody play it.

You can earn achievements.. While the interface could be a little cleaner it isn't game-breaking, and the content is excellent.

There are enough choices that in my battery of playthroughs I don't any conversation went *exactly* the same. I definitely see myself trying to get more outcomes and putting more time into this.

This is a bad game after you get the laser, it's annoying that you are obligated to get all powerups. It's DLCs seems like scam, they are almost the same thing.. After playing Assetta Corsa holy♥♥♥♥♥♥ This games physics engine and sounds are a lot better IMHO. The car even stalls when you brake on the clutch and everything. It's fantasticly made.. Dead, devs had to get normal jobs, game is no longer being developed. If you're interested in looking at a dead project and maybe what could have been a good game, feel free to check it out. But don't expect much.. God has left us.. The achievements didn't work for me, as that is really the only reason to buy this type of game; it is an instant return. How did this get delayed so many times & still come as a worse game than Zombie Parking.
