The Dark Thirty DVD Pack is available for download now! Dark Thirty: Evidence #1 (2018-) is a feature film in one of the longest running franchises around (that may not be the longest, mind you). In 1996, director A.J. Bayona and writer/producer Peter Kurzman created and directed the film, based on a book written by Jack Hoffman the previous year with John Krasinski and Robert Mulligan. They took inspiration from Hoffman's book and the movie, and developed a new story that went beyond the original film. Based on a novel by Hoffman and published in 2003, the movie is a brutal, heart-wrenching and incredibly accurate depiction of events that unfolded on 9/11.
